PROBIOTIC SPRINKLES

A Healthy Body Starts with a Healthy Belly!

This not only means following a healthy nutritional plan, but also making sure that you have the right amount of *good bacteria*, or *probiotics*, in your stomach. Even if you're following a healthy diet, if you don't have a good balance of bacteria, your body won't be able to digest all the nutrients you are consuming, which can lead to many digestive and health problems.

Root Beer Belly™ contains 5 key probiotics that support your digestive and immune system.†

What truly sets **Root Beer Belly™** apart from other probiotic supplements on the market today is that the probiotic sprinkles have been microencapsulated. Unlike other probiotics, each sprinkle has been coated, making it more capable of surviving stomach acidity and cultivating in your intestines. The probiotics found in **Root Beer Belly™** will provide you with many health benefits, giving you a healthy and strong belly.

A Healthy Body through 5 Key Probiotic Strains:

Lactobacillus acidophilus:

- Acts as a natural antibiotic by shielding the body from harmful bacteria

Lactobacillus plantarum:

- Preserves key nutrients like vitamins and minerals
- Stimulates cellular repair and recovery

Lactobacillus rhamnosus:

- Known as one of the healthiest species of "good bacteria"
- Enhances your immune system and inhibits the growth of harmful bacteria

Bifidobacterium breve:

- A lactic acid-producing bacterium which assists in the production of the antibiotic "lactobrevin" to support individuals with lactose intolerance

Bifidobacterium lactis:

- Known for its ability to stimulate the immune response
- Can also help regulate the system to avoid constipation and diarrhea

COMPARISON CHART

Per Serving	Calories	Sugar	Strains
Leading Probiotic Yogurt (113 g)	120	19 g	Bifidobacterium lactis
Root Beer Belly™ (2 g)	4	0 g	Lactobacillus acidophilus Lactobacillus plantarum Lactobacillus rhamnosus Bifidobacterium breve Bifidobacterium lactis

YOU NO LONGER NEED to consume extra calories in order to get your daily dose of probiotics. Each **Root Beer Belly™** packet only contains 4 calories and more probiotic strains than leading probiotic yogurt brands.
